

III. NETWORK SECURITY ESSENTIALS

Aim:

Learn about key aspects of network security essentials and how to monitor and protect against adversaries.

Procedure:

1. Log in to TryHackMe and open the Network Security Essentials module.
2. Study the concepts and complete the given tasks.
3. Analyze network activity and answer the questions.
4. Submit the answers to finish the module.

TASKS:**Task 1: Introduction**

Complete the task.

No answer needed

✓ Correct Answer

Task 2: Lab Connection

Connect to the Lab.

No answer needed

✓ Correct Answer

Task 3: A Network - Overview

Continue to the Next task.

No answer needed

✓ Correct Answer

Task 4: Network Visibility

Continue to the next task.

No answer needed

✓ Correct Answer

Task 5: Network Perimeter

Continue to the next task.

No answer needed

✓ Correct Answer

Task 6: Network Perimeters - Monitoring and Protecting

Examine the firewall logs. Which IP address is performing the port scan?

203.0.113.10

✓ Correct Answer

In the WAF Logs, which single source IP is responsible for all the blocked web attacks?

198.51.100.12

✓ Correct Answer

In the VPN logs, how many brute-force attempts failed?

90

✓ Correct Answer

Which suspicious IP address was found attempting the brute-force attack against the VPN gateway?

45.137.22.13

✓ Correct Answer

Task 7: Perimeter Logs : Investigating The Breach

Answer the questions below

Examine the firewall logs. What external IP performed the most reconnaissance?

203.0.113.45

✓ Correct Answer

In the firewall log, Which internal host was targeted by scans?

10.0.0.20

✓ Correct Answer

Which username was targeted in VPN logs?

svc_backup

✓ Correct Answer

What internal IP was assigned after successful VPN login?

10.8.0.23

✓ Correct Answer

Which port was used for lateral SMB attempts?

445

✓ Correct Answer

In the IDS logs, which host beaconed to the C2?

10.0.0.60

✓ Correct Answer

During the investigation, which IP was observed to be associated with C2?

198.51.100.77

✓ Correct Answer

Which host showed the exfiltration attempts?

10.0.0.51

✓ Correct Answer

Task 8: Conclusion

Complete the room.

No answer needed

✓ Correct Answer

Result:

Successfully completed the Network security essentials module on TryHackMe, gaining an understanding of basic network security concepts, threat detection, and methods to monitor and protect systems from adversaries.
